Türk Eczacıları Birliği Merkez Heyeti,
ATTN: Dr. Bilge Sener, Director
Farabi Sokak No. 35, Kavaklıdere,
Ankara, Turkey

Dear Dr. Sener:

Chemical Abstracts Service has received the sample issues. Thank you very much for sending 1990-Volume 30 (Number 1, 2, and 3) of the journal PHARMACIA (ANKARA).

I am pleased to report that this periodical has been evaluated and found suitable for abstracting and indexing in CHEMICAL ABSTRACTS. We would therefore like to make arrangements to receive all future volumes/issues as published.

We would be most grateful if you could send these on a complimentary basis. Many organizations do so in the belief that our service broadens the readership and importance of their publications.

Chemical Abstracts Service, as a division of the American Chemical Society, is a not-for-profit organization whose purpose is to provide its users with access to what is published worldwide in the fields of chemistry and chemical engineering. We do this by providing bibliographic citations, abstracts and indexes to that literature. Today, we cover more than 10,000 serial publications worldwide. We believe firmly that we are supporting the scientific and technical publishers by providing the users of our services with timely awareness of what has been published and the sources of that information. We sincerely believe that broader recognition and increased subscriptions to those journals are fostered by our efforts. In fact, many publishers provide us with copies gratis to recognize our service to them and to encourage our coverage.

Thank you in advance for your consideration. Your continued interest in support of CAS as well as your earliest reply will be much appreciated.

Sincerely yours,

Vandy Mudders
